

# Apacer®

## Memory Card Micro SDXC UHS-I U3 V30 Apacer A2

64GB / 128GB / 256GB / 512GB

**A2**  
APP PERFORMANCE

### Faster and Smoother User Experience

Complies with the SD Association latest Application Performance Class A2 certification standard, delivering minimum random read performance of 4,000 IOPS and random write performance of 2,000 IOPS, and sequential transfer speed of at least 10MB/s. Optimized specifically for mobile devices to accelerate the launch speed of applications, provide better random access and execution performance, make apps stored on memory cards faster, offers user a faster experience and smoother mobile lives.

### Everything's On The Record with Apacer

Aimed at supporting home applications such as recording driving and remote real-time monitoring, Apacer V30 A2 memory card is ideal for saving and accessing image files. The large-capacity option means insufficient capacity is never a problem. Not a single frame will be dropped, so families can sleep well knowing they're safe.

### High Writing Speed

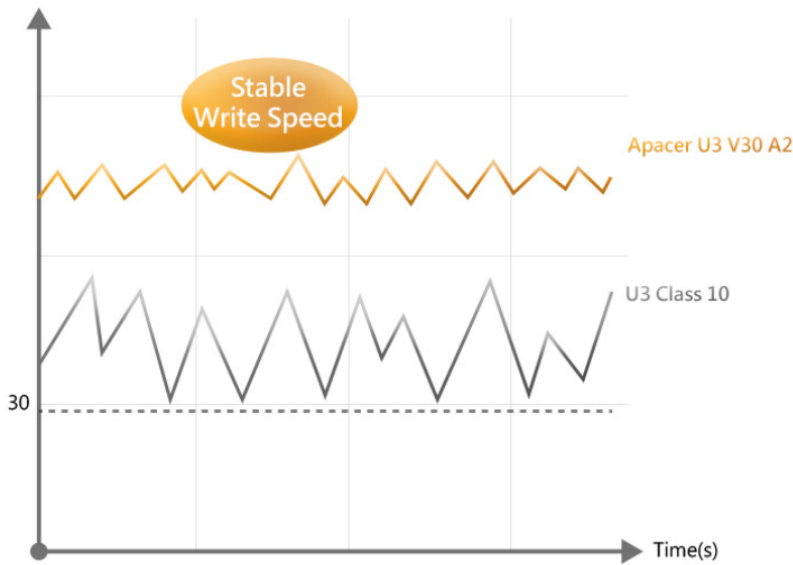

The V30 A2 memory card complies with SD Association's latest UHS Video Speed Class 30 (V30) standards. It writes with a minimum speed of 30MB/s, supporting 4K Ultra HD, 3D videos, and burst mode.

| UHS Speed Class         | Speed Class               | Min. Constant Write Speed | Video Speed Class | Capable Application |                  |          |          |
|-------------------------|---------------------------|---------------------------|-------------------|---------------------|------------------|----------|----------|
|                         |                           |                           |                   | 4K Video            | Full HD HD Video | HD Video | SD Video |

\*This speed performance is achieved under the conditions specified by the SD Association.

\*Transmission speeds vary based on your system performance (e.g. hardware, software, usage, etc.)

Write Speed (MB/s)

\*Transmission speeds vary based on your system performance (e.g. hardware, software, usage, etc.)

## Smooth Recording

Compared to conventional memory cards, Apacer's Video Speed Class card offers a more stable write speed to ensure uninterrupted smoothness during shooting, without problems such as drop frame or data loss. It is suitable for devices that captures continuous images, such as drones, sports cameras, 360-degree cameras.

## Limitless Joy! Large Capacity Up to 512GB

Available in 4 memory capacities, 64GB, 128GB, 256GB and 512GB. Now your professional video recorders, smartphones, or digital cameras can capture as many images as you like and never miss out any wonderful moments in life.

## Multiple Protections

Apacer V30 A2 memory card passes waterproof, shockproof, magnet proof, X-ray proof, and temperature proof tests and functions even in the harshest environments. Equipped with write-protect and error-correcting code (ECC) features, V30 A2 provides the most robust protection for your valuable data.
